

PARTICIPANTS NEEDED FOR HEARING RESEARCH STUDY

PURPOSE

We are evaluating potential hearing and genetic effects of antiretroviral drugs used for HIV treatment or prevention (PrEP).
This is a research study, not treatment.

YOU MAY QUALIFY IF YOU ARE...

1. Not prescribed an antiretroviral medication
2. 18+ years of age

PARTICIPATION

2 hour study visit at the Portland VA, including:

1. Hearing testing
2. Questionnaires
3. Physiologic tests of auditory function
4. Blood draw

POTENTIAL BENEFITS

You may not directly benefit from being in this study. However, you will receive a comprehensive hearing evaluation as part of this research

COMPENSATION

\$25/hour of participation
